D.tec International Ltd.
PO Box 914
Preston, PR4 9BE.

Blackpool Transport are a bus and tram operator serving the Fylde Coast linking Lytham, St Annes, Blackpool, Bispham, Fleetwood, Cleveleys and Poulton. The Blackpool tramway runs for 11 miles along the coast using modern, light rail trams.

Chris Sage: Blackpool Transport Services - Depot Shift Manager

1. Challenge

Being a large public transport operator means that Blackpool Transport take a strict approach to drug and alcohol testing to ensure they uphold the highest levels of safety and reassurance for their customers.

The safety of their teams and the general public is an utmost priority.

2. Solution

With this in mind, Blackpool Transport utilise D.tec products for their in-house drug and alcohol testing.

Blackpool Transport require accurate and reliable systems so they can take a positive and proactive approach to safety.

3. Benefit

Blackpool Transport told us... "D.tec products give us quick and clear results with great customer support and regular breathalyser recalibrations to ensure our testing is always accurate.

Having a high quality product that we can trust is key."

4. Result

Blackpool Transport have accurate and practical in-house testing kits that their teams are confident and competent in using.

By utilising in-house screening, Blackpool Transport are able to demonstrate their proactive approach to safety and ensure the minimisation of any risks.
